## **Architectural Group International (AGI) Appointed Design Firm For Harley Davidson**

Covington, Kentucky based Architectural Group International (AGI), has been appointed as one of only three authorized design firms for the Retail Environment Group for all Harley Davidson dealerships nationwide.

"Working with an iconic brand such as Harley Davidson is truly an honor for AGI. Harley Davidson is a tremendous American company that has weathered these difficult economic times and is now looking towards continuing their legacy as the economy rebounds," said David Thiel, Principal.

In 2010, AGI was asked to develop a conceptual design for a theoretical Harley Davidson dealership located in Virginia. Proposed exterior building elements, an interior entrance redesign, new store fixtures and furnishings and the use of Harley Davidson inspired graphics highlighted the proposed new concept.

AGI's retail portfolio includes some of the world's leading brands including Macy's, The Home Depot, Jack Wills University Outfitters, The Body Shop, Bed Bath & Beyond and AutoZone.

***AGI is an international architecture and interior design firm specializing in retail, hospitality and entertainment projects worldwide with offices in Covington and Abu Dhabi. AGI promotes cutting edge design concepts that support clients' business goals and directives, providing flexible, unique, and lasting solutions.***
