Architectural Group International Expands Playing Field

COVINGTON, KY – Architectural Group International (AGI), a full service architectural and interior design firm is working in conjunction with the United States Department of Commerce to help expand their international body of work.

Within the past three years, AGI has completed architectural and interior design projects in all 50 States, all Provinces of Canada, Mexico, Puerto Rico, Abu Dhabi and Dubai. Several of AGI's existing clients were looking towards expansion specifically in the fast growing regions of Latin America and the Middle East. Having completed projects in other countries around the world, AGI was a natural fit for taking on this new challenge. Currently Architectural Group International is building relationships in Brazil, Costa Rica, Honduras, Guatemala, El Salvador, and within the United Arab Emirates.

AGI provides a wide variety of architectural design, documentation, and program management services for international retailers, developers, and franchisees. AGI promotes cutting edge design concepts that support clients' business goals and directives, providing flexible, unique, and lasting solutions. AGI was named as one of the Top 100 Design Firms by DDI and is headquartered in Covington, Kentucky.
